OUR PROGRAM:

Speaker: Susan McCollum of Voice Media, guest of Bill Ferguson, was our speaker today. She introduced us to the business of voice-over ... voice work on promotions, radio, television, corporate narration, video games, etc. She talked about how to get into the business ... training, demo CDs, sound alike ... And after Bill Ferguson was put to the test, Susan had the entire crowd up on their feet doing exercises and voice work. Great fun. Thanks, Bill, for arranging an interesting talk.
